DROP

Indexes, tables, and databases can easily be deleted/removed with the DROP statement.

DROP INDEX

DROP INDEX Syntax for MySQL:

```
ALTER TABLE table_name DROP INDEX index_name
```

DROP TABLE

The DROP TABLE statement is used to delete a table:

```
DROP TABLE table_name
```

What if we only want to delete the data inside the table, and not the table itself?

Then, use the TRUNCATE TABLE statement:

```
TRUNCATE TABLE table_name
```

DROP DATABASE

The DROP DATABASE statement is used to delete a database:

```
DROP DATABASE database_name
```
